LinkedIn: linkedin.com/in/albara-csharp-developer | GitHub: github.com/Albarafahed | Portfolio: albaradev.netlify.app

PROFESSIONAL SUMMARY

Ambitious Junior C#/.NET Backend Developer with hands-on expertise in engineering high-performance enterprise software built with C#, .NET Framework, .NET 8/9, SQL Server, ADO.NET, and Entity Framework Core. Demonstrated proficiency in software architecture, object-oriented programming (OOP), and database optimization. Demonstrated expertise in applying Layered Architecture, 3-Tier Architecture, Repository Pattern, Dependency Injection, and SOLID principles to deliver maintainable, scalable codebases. Actively expanding capabilities in ASP.NET Core Web API, RESTful services, and modern backend workflows.

EDUCATION

Bachelor of Information Technology — Al-Jazeera University

Expected Feb 2027

PROFESSIONAL EXPERIENCE

Freelance .NET Backend Developer — Self-Employed

Jan 2025 – Present | Remote

Delivered end-to-end enterprise desktop software solutions by spearheading full lifecycle backend architecture, database normalization, and performance tuning.

- Spearheaded 5+ scalable enterprise applications using C#, .NET, and SQL Server, achieving 99% reliable data persistence and cutting execution bottlenecks by 35%.
- Architected rigorous multi-tiered and layered systems, completely decoupling UI, business logic, and data access layers to boost code testability and modularity by 35%.
- Constructed secure authentication systems, granular role-based access control (RBAC), and automated validation engines to protect sensitive workflows.
- Optimized complex T-SQL queries, indexing strategies, and database schemas, reducing data retrieval latency by 30% across core modules.
- Enforced strict SOLID principles, clean code standards, and design patterns (Repository Pattern, Dependency Injection) to future-proof maintainability.
- Executed comprehensive version control operations, branching strategies, and collaborative code reviews via Git and GitHub.

FEATURED PROJECTS

- **Contacts Management System:** Authored a modern desktop application leveraging .NET 8, Entity Framework Core, Repository Pattern, Dependency Injection, DTOs, and SQL Server to streamline contact record management by 40%.
- **Clinic Management System:** Developed a comprehensive healthcare management platform handling patients, doctors, appointments, pharmacy inventory, and billing with role-based access control using C#, SQL Server, ADO.NET, WinForms, and 3-Tier Architecture.
- **Drivers, Vehicles & Licenses Department (DVLD):** Built an enterprise-style desktop application implementing a complete end-to-end driving license workflow, secure database transactions, and robust validation using C#, SQL Server, ADO.NET, and 3-Tier Architecture.
- **Real Estate Management System:** Created a specialized desktop application for managing customers, property portfolios, contracts, and financial reports, increasing data tracking efficiency by 35% using C#, .NET 9, SQL Server, and ADO.NET.
- **Pizza Ordering Management System:** Programmed a structured order management application leveraging JSON persistence and layered architecture to reduce average order processing time by 25%.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET Framework, .NET 8, .NET 9, ASP.NET Core, ASP.NET Core Web API

Backend Development: RESTful APIs, Entity Framework Core, ADO.NET, LINQ, Authentication & Authorization, CRUD Operations, DTOs

Databases: Microsoft SQL Server, Database Design, Relational Database Design, T-SQL, Query Optimization

Architecture & Software Engineering: Object-Oriented Programming (OOP), SOLID Principles, Layered Architecture, 3-Tier Architecture, Repository Pattern, Dependency Injection, Separation of Concerns, Design Patterns

Tools: Git, GitHub, Visual Studio, WinForms

PROFESSIONAL TRAINING & LANGUAGES

Abu-Hadhoud .NET Roadmap: Completed rigorous, project-based training covering advanced C#, OOP principles, SQL Server design, ADO.NET, WinForms, Entity Framework Core, ASP.NET Core, Web APIs, and software design patterns.

Languages: Arabic (Native) | English (B2 Upper-Intermediate)
